KEY PROJECTS

- **Namandarshan** – Managed On-Page, Off-Page, and Technical SEO along with website optimization; added new features including a live Darshan YouTube embed and mythology-themed quizzes/games to boost user engagement and time-on-site.
- **ComfortDiva (USA Client)** – Rebuilt a poorly-structured Blogger site (previously handled by another agency) into a proper e-commerce website on Wix. Identified and fixed a critical technical SEO issue where the entire site was incorrectly redirecting HTTPS to HTTP, making it inaccessible/insecure — along with resolving multiple other technical SEO errors, restoring site accessibility and search visibility.
- **Khushboo Collection** – Improved brand visibility and local reach through On-Page SEO and Local SEO strategies, increasing organic engagement.
- **Prakriti's Dental Care (Pune)** – Developed and managed the complete website, along with executing Google Ads & Meta Ads campaigns (search, retargeting, video ads)
Created and edited ad creatives & video content, optimizing funnels for better lead generation and appointment bookings.
- **Socialmadaari.com** – Built an SEO-focused website (HTML, CSS, JavaScript) with integrated SEO tools and optimization features.
- **Inklore Tattoo** – Designed and developed the website and managed paid ads & social media campaigns, improving engagement and customer inquiries.
- **OSINT Tool Project** – Created a Linux-based OSINT script for username footprint analysis as part of B.Tech final year project.
- **Load Testing & Security Tool (Python)** – Built a Python-based tool that simulates high-volume concurrent requests to a target website to test its resilience against traffic spikes and DDoS-style attacks, helping identify server/infrastructure weaknesses before real threats do.
- **AI-Native Website Build** – Designed and built a fully functional, publish-ready business website from scratch using AI development tools (Lovable, bolt.new), deployed via Vercel/GitHub — no traditional coding involved.

EDUCATION

- **B.Tech** – Information Technology | IIMT College of Engineering, Greater Noida (2020 – 2024), PIN: (201310)
- **12th** – Barhi Inter College, Jharkhand, Barhi, PIN: (825405)
- **10th** – Sri Ramakrishna Sarada Ashrama (Vivekananda Central School), Jharkhand, Hazaribagh, PIN: (825301)

CERTIFICATIONS

- SEO Basic & Advanced Programs – Skills Nation
- Google Analytics Certification
- Google Ads & Meta Ads Program

- Google Digital Garage – Fundamentals of Digital Marketing

ACHIEVEMENTS & HIGHLIGHTS

- Delivered 60–120% organic traffic growth and ranked 300+ keywords into top-10 SERP positions across SaaS, service-based, and local brands
- Managed end-to-end Meta & Google Ads campaigns alongside SEO, improving CTR and reducing CPC for stronger overall ROI
- Grew social media engagement by 35%+ through integrated content and paid strategy
- Independently built and scaled a personal content brand to 250K+ combined followers and 40M+ monthly views (Facebook, Instagram, YouTube)
- Comfortable operating across the full growth stack — SEO, paid ads, content, and web development — rather than working in a single silo
